OBJECTIVE

Full-stack developer with experience building scalable web applications using **React.js**, **Next.js**, **TypeScript**, and **Laravel**. Skilled in **AI** integration, secure payment systems, and responsive **UI/UX**, delivering solutions that boost engagement and conversions. Seeking to apply technical expertise to innovative development projects.

PROJECTS

TBPillPal – Tuberculosis Companion | **Firestore**, **TailwindCSS**, **ShadCN-UI**, **React.js**, **TypeScript**

- Developed and deployed TBPillPal for the Baliwag Rural Health Unit (RHU) to streamline tuberculosis (TB) treatment management and patient tracking.
- Integrated real-time notifications and dashboards for healthcare workers to improve efficiency in monitoring medication adherence and follow-ups. **2025**
- Designed a gamified adherence feature to encourage patient participation and promote consistent medication intake.
- Implemented AI-based result summarization, helping healthcare staff interpret test outcomes faster and make more informed treatment decisions.

BookTix – Modern Movie Ticket Booking Platform | **React.js**, **TypeScript**, **TailwindCSS**, **ShadCN**, **Zustand**, **Groq AI**

- Developed full-stack MVP with advanced search and filtering, reducing ticket purchase and increasing booking completion rates. **2025**
- Integrated Groq-powered AI chatbot for instant customer assistance, reducing support tickets and improving customer satisfaction scores.
- Implemented secure Stripe payment gateway with automated confirmations, minimizing payment errors and increasing successful transaction rates.

Beati Cafe – Modern Cafe Web Application | **Next.js**, **React**, **TypeScript**, **Tailwind CSS**, **ShadCN**, **Groq AI**

- Developed a **full-stack e-commerce** cafe platform with advanced filtering and cart management to improve product discovery and streamline the checkout flow. **2025**
- Integrated a **Groq AI** chatbot for instant menu recommendations and customer inquiries, enhancing engagement and providing faster response times.
- Implemented a secure authentication system with comprehensive form validation (**Zod**, **React Hook Form**), ensuring data integrity and minimizing input errors.

EXPERIENCE

App Developer

December 2025 - March 2026

Coral System Technologies Inc.

- Developed real-time features with **WebSockets** using **Laravel Broadcasting**, **Echo**, **Reverb** in **Docker** environments.
- Contributed to Human Resource Information Systems **HRIS** development: core modules, enhancements, and workflows.
- Built reusable UI components with **ShadCN** and **Vue.js**, improving **UX** consistency.
- Implemented multitenant architecture with role-based access control via **Laravel Spatie** Permissions.
- Wrote unit tests using **Laravel Pest**, boosting reliability and reducing regressions.
- Applied repository pattern for clean, maintainable business logic following coding standards.
- Collaborated in **Agile** workflows, managing tasks, iterative development, and continuous feedback.
- Managed **GitLab** workflows: branching, merge requests, conflict resolution, and code reviews.
- Gained experience with **CI/CD** pipelines in **GitLab Actions** and **Debian/Linux** for **Docker** and CLI tasks.
- Submitted 20+ pull requests delivering **UI**, backend, and performance improvements.

Knowles Training Institute

- Designed and maintained engaging, user-friendly web pages to enhance the institute’s digital presence.
- Collaborated with the marketing team to develop and implement creative layouts aligned with brand guidelines.
- Created, uploaded, and optimized website content, including construction service descriptions, project updates, and promotional materials, ensuring consistency in branding, tone, and visual presentation.
- Improved website navigation, accessibility, and responsiveness across devices for a seamless user experience.
- Assisted in SEO optimization by structuring content and metadata to increase visibility and search rankings.
- Contributed to ongoing website updates, ensuring accurate and timely publication of course information and event details.

Information Technology Operations Intern

November 2024 - March 2025

Concentrix Cyberwest

- Provided technical and software support to end-users, resolving hardware, software, and network issues.
- Administered and maintained IT systems and user accounts, ensuring smooth and secure operations.
- Gained hands-on experience with servers, networks, and system configurations, strengthening technical problem-solving skills.

Software Development Lead

September 2024 - December 2024

Google Developer Student Club - National University - Baliwag

- Led the planning phase of student development projects, defining scope, goals, and expected outcomes.
- Identified requirements, clarified project objectives, and ensured alignment with university needs.
- Facilitated planning meetings to outline responsibilities, timelines, and deliverable expectations.
- Provided guidance on project direction and documentation standards.
- Managed cross-functional coordination with faculty and student teams to ensure alignment and maintain project clarity.
